

## **7G STONE EXPORTERS**

NATURALLY BEAUTIFUL  
DISTINCTIVELY GRAND

# About Us

7G Stone is a manufacture and exporter of natural stones from India. The stone collection includes Granites, Marbles, and Travertine.

We export all types of Granites and Marbles. We supply high quality natural stones. The raw material procured from top quarries and processed at state of our art processing plants, the company is having capability of producing and processing large quantities of marble and granite rough blocks in our own quarries and factory.

These products are famous as elevation and floor tiles for commercial and residential properties throughout the world. These products also used for table and kitchen tops. The products have very high compressive strength and are suitable for tombstones in Europe and Middle East

The image shows a vast warehouse filled with numerous stacks of stone slabs, likely granite or marble, arranged in neat rows. The slabs are of various shades, including dark grey and light grey. The warehouse has a high ceiling with visible structural beams and large windows in the background. On the right side of the image, there is a large, stylized graphic of the letter 'G' in white and black, with a yellow vertical bar extending from its bottom right corner. The text 'Our Mission' is overlaid on a dark grey rectangular area in the lower-left portion of the image.

# Our Mission

7G stone exporters for Marble and Granite stone had made a rock solid commitment to their customers by guaranteeing a high level of quality, service, and professionalism at all times. To achieve our goal as an industry 7G Stone exporters for Marble and Granite stone will always operate in an honest, ethical, and environmentally conscious manner and will cultivate fair long term relationship with their employees, customers, and suppliers

A wide-angle photograph of a large industrial granite processing plant. The facility is filled with stacks of granite slabs in various colors, including white, grey, and black. Several workers in safety gear are visible in the background, engaged in different tasks. The plant has a high ceiling with large windows and industrial equipment. The scene is brightly lit, suggesting a well-maintained and active production environment.

# Our Vision

7G Stone Exporters has a vision to become the largest producer of granite in the world by using its strength to provide superior quality products and service with the highest standards. The company is constantly focused on DEVELOPING and SUSTAINING brand-equity as a market-leader in our field of expertise, CREATING exponential improvements in group efficiency and inter-group synergies. 7G Stone Exporters aspires to MAINTAIN and ENHANCE its Core Values: honesty and integrity, leadership, community and prosperity

# Granite

Granite is one of the hardest known construction and flooring stone on earth. It is an igneous stone, and formed from the magma. The major constituents of Indian Granite Stone are Feldspar, Quartz and few other minerals. The chemistry and mineralogy of these constituents decide the colour and textures of Natural Granite Stone. Indian Granite industry is better known for its qualitative product of wide variety of granite shades. Indian Granite could be summarised into two major categories, depending upon their place of origin. We, at 7G Stone Exporters Marble and Granite provide a single point access to wide range of Indian Granites.
